Children In Immigration Detention

At 28 February 2018 there were less than five children (aged less than 18 years) in Immigration Residential Housing, Immigration Transit Accommodation and Alternative Places of Detention.

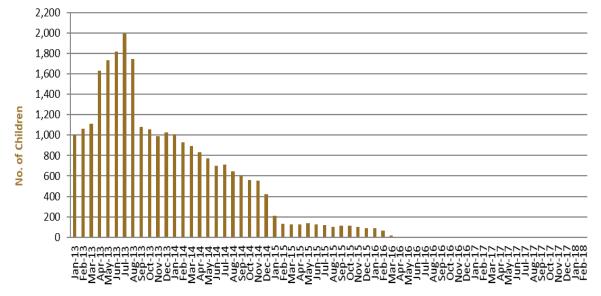

Figure 3 above, shows the number of children in immigration detention facilities and alternative places of detention from January 2013 to the date of this report. The continuous increase in the number of children in detention facilities from April 2013 to Aug 2013 was due to a rapid increase in illegal maritime arrivals during this period. The number of children in immigration detention facilities reduced in September 2013, as children completed mandatory processing and were transferred into the community. The number of children in detention facilities continued to decline during the late 2013 and 2014, with further reduction in January 2015.

At 28 February 2018, the number of children living in the community after being approved for a residence determination remained the same at 173 with the previous report.

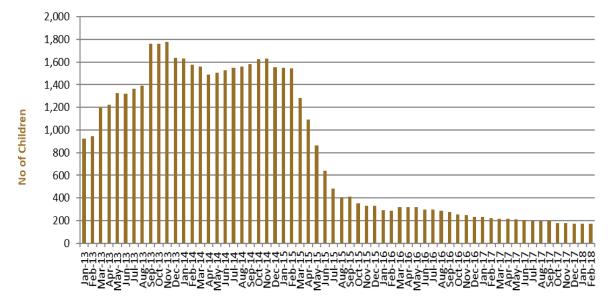

Figure 4 above, shows the number of children in the community under residence determination from January 2012 to the date of this report. The number of children in the community under residence determination, has levelled off at its lowest number since the peak in November 2013, as a result of releases into the community on Bridging E visas.
